# Actor-Led Learning That Sticks

AT T-THREE, WE USE PROFESSIONAL  
ACTORS AND EXPERT FACILITATORS TO BRING  
REAL WORKPLACE CHALLENGES TO LIFE.

**Why?** Because people learn best when they feel something —  
when they recognise themselves, try new approaches,  
and see the impact straight away.

Our sessions create those memorable “oh wow” moments that  
spark genuine behaviour change, long after the training's over.

## WHAT WE DO (IN A NUTSHELL)

### Live & Filmed Experiences

From filmed scenarios to fully interactive live sessions,  
we help people explore real workplace situations  
in a way that's emotional, practical, and safe.

### See It. Try It. Change It.

Participants watch scenarios unfold, spot what's working  
(and what isn't), and explore alternative approaches. They get to see  
the impact of different choices — sometimes instantly.

### Make It Relevant to Your World

Choose from ready to use content or let us create bespoke scenarios  
shaped around your culture, challenges and language.

### Works Anywhere

Perfect for leadership programmes, culture change,  
away days, conferences, and blended learning.  
Face to face, virtual, or integrated into your existing L&D ecosystem.

# Why it works

## Why It Works

- Realistic scenarios that feel familiar
- Emotional engagement that sticks in the memory
- A safe space to experiment with new behaviours
- Expert facilitation to help people turn insight into action
- Immediate, practical tools people can use straight away

## Topics We Commonly Support

Leadership

Inclusion

Wellbeing

Culture

Health & Safety

(And we tailor everything if you need something specific.)

## Ready to Elevate Your Learning?
